Re: Burlington Environmental Inc. (BE) Pier 91 RFI Workplan

Enclosed is the final Pumping Test Workplan for the Pier 91 Facility. A draft workplan was submitted in October 1992 as required by the USEPA July 1992 conditional comments/approval of the Pier 91 RFI Workplan. Based on USEPA's February 4, 1993 comments, a final workplan was submitted on February 24, 1993. This final workplan addresses USEPA's comments on the February 24th final workplan.

If you have any questions or require further information, please contact me at (206) 654-8153.

Sincerely,

John Stiller
Project Coordinator
